

Class 1

HP275 Attack Max B35 Briggs & Stratton Engine

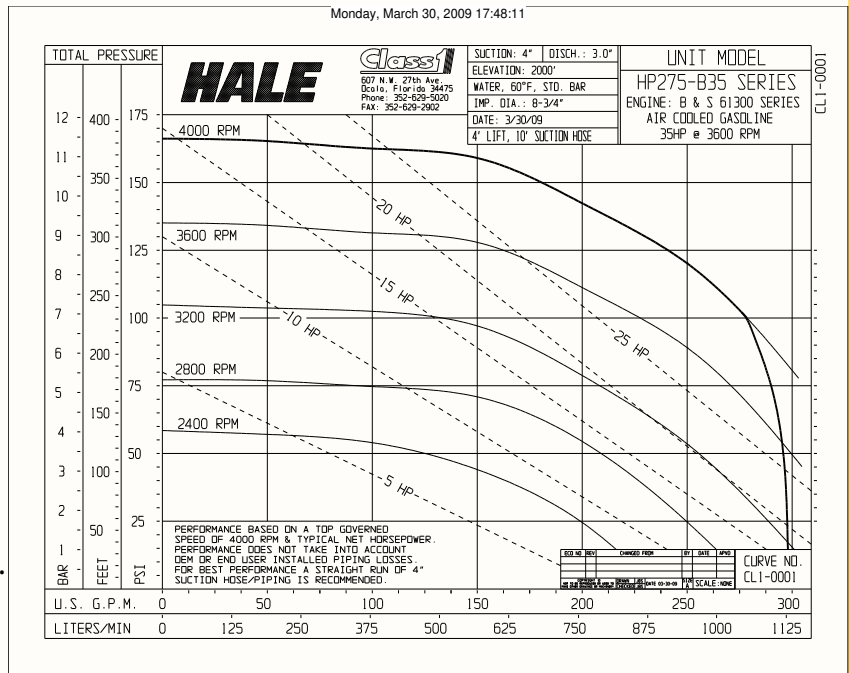

240 GPM @ 125 PSI • 180 GPM @ 150 PSI

Features and Benefits

- Cost efficient twin handline performance pump
- Full Instrumentation — Instrument panel shipped loose for remote mounting ("X" versions)
- Superior Performance—High pump efficiency
- Briggs & Stratton Vanguard Gas Engine—Quiet and powerful
- Exclusive band clamp design — Quick and easy access for maintenance and repairs

The Attack Max is a twin handline capable pump. It is conveniently designed for easy installation by truck builders. Power is provided by the respected Briggs and Stratton Vanguard engine. The Vanguard power comes from a reliable state-of-the-art, air cooled, 35 BHP, V-twin, Overhead Valve (OHV) engine. The overhead valve design delivers more power than conventionally designed side-valve engines. It has an electric starter to ensure starting under all conditions.

Length	Width	Height	Weight
23.8"	23.5"	24.3"	190 lbs
