

Instructions: Insert the following paragraphs into your specifications to ensure that your new apparatus is equipped with class 1 components

VOLTAGE MONITOR

The apparatus pump panel shall be equipped with a Class 1 Low Voltage Monitor to monitor the electrical system voltage.

The Low Voltage Monitor shall mount on the pump panel and include a bright green LED to indicate a good voltage level and a bright red LED to indicate a low voltage level. The low voltage monitor shall also contain a 90 dba buzzer that sounds when the voltage falls below 11.9 volts for more than 2 minutes and a silence button that will reset the buzzer for 2 minutes.

The Low Voltage Monitor shall be installed in strict accordance with the installation instructions supplied by Class 1.
